

QUEST

mission rooms

EASY TO OPERATE. FUN TO PLAY.
JOIN THE GAME

A product designed together with you

The facility is decided and designed together with you - our customer.

The great advantage of this product is that it is fully automated. Each room resets itself after use and is ready for the next group of players to enter for a new challenge. This advantage gives you a safe operational security for your facility with minimum staff requirement.

Every facility is unique. We design and plan the facility based on your specific needs and wishes.

You can choose from our recommended range of Mission Rooms or you can provide your own ideas and preferences for room designs and sizes. You can also choose your preferred room sequence and a themed corridor design.

Our product can be playable 24/7, all year round, giving you maximum income potential and profitability!

Take on the challenge and join the game

Quest is a thrilling and challenging escape-room product, created for all age groups!

On arrival, each group of players is issued with a registered wristband. This wristband serves as the entry key for every room in a Quest mission.

As players progress through the rooms, they can monitor their scores on screens located in the custom-designed corridors.

Does it take team work or individual brilliance to win? Players need a combination of both! All Quest Mission Rooms are pre-tested to the limit in our factory to guarantee the highest levels of player enjoyment and achievement.

Most visitors don't want to leave before they have repeatedly tried various challenges to achieve the highest scores possible.

Crack the codes

Logic and ability

Team play

Welcome to be involved throughout the planning process. Together, we will shape the facility based on your specific needs and budget. Our wide range of rooms can be modified in both theming and size.

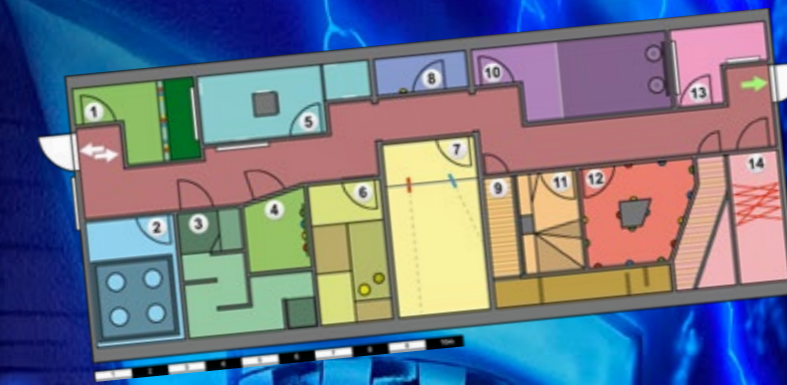

If you have a mascot, product, or local tourist attraction to highlight — we can make that happen!

A full size Quest facility can be designed in many different ways and the themes can be customized.

The standardised Quest facility at the top layout below was completed during spring 2023. It comprise 14 rooms in total and covers a floor area of around 200 m2.

The corridors that connect the rooms at City Games in Örnköldsvik highlight several local attractions and Northern phenomenon, such as the beautiful northern lights.

THE MISSION ROOMS COLLECTION

THE MISSION ROOMS COLLECTION

Facts in brief
PETER PAN'S
Indoor Abenteuer

Key data: 14 rooms at circa 185 sqm. Built in 2022.

In 2022, we designed and installed a Quest Mission Room facility at Peter Pans Indoor Abenteuer in northern Germany. 60 kilometres from Berlin in a village called Joachimstal with approx. 3300 habitants. The family entertainment center also offers a lot of other activities, for example an 18-hole City Golf Pirate Adventure Golf Course and Trampoline games.

The center now also offers fun and excitement in 14 different Mission Rooms, designed in a total area of 200 sqm. Customer response has been great as the number of visitors has been growing each year.

Location: Joachimstal, Germany

SHOWCASE

Facts in brief

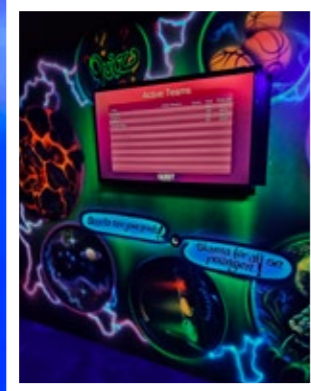

Key data: 15 rooms at circa 180 sqm. Built in 2024.

In March 2024, we started the prefabrication of a Mission Rooms facility in our factory, for Laserdome Bromma in Stockholm.

Installation and completion were taking place in the autumn and opened for public in October 2024.

Along with their new and fun Mission Rooms offering, they also have Laser Tag, arcade games, tabletop sports and much more. Laserdome Bromma is one of seven Laserdome facilities in Stockholm and the company has a total of 17 facilities in Sweden.

SHOWCASE

UNDER PRODUCTION!

Facts in brief
Fun4You

Key data: 14 rooms at circa 200 sqm.

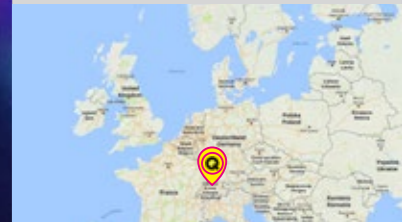

Production started in summer of 2025, expected to be opened end of the year.

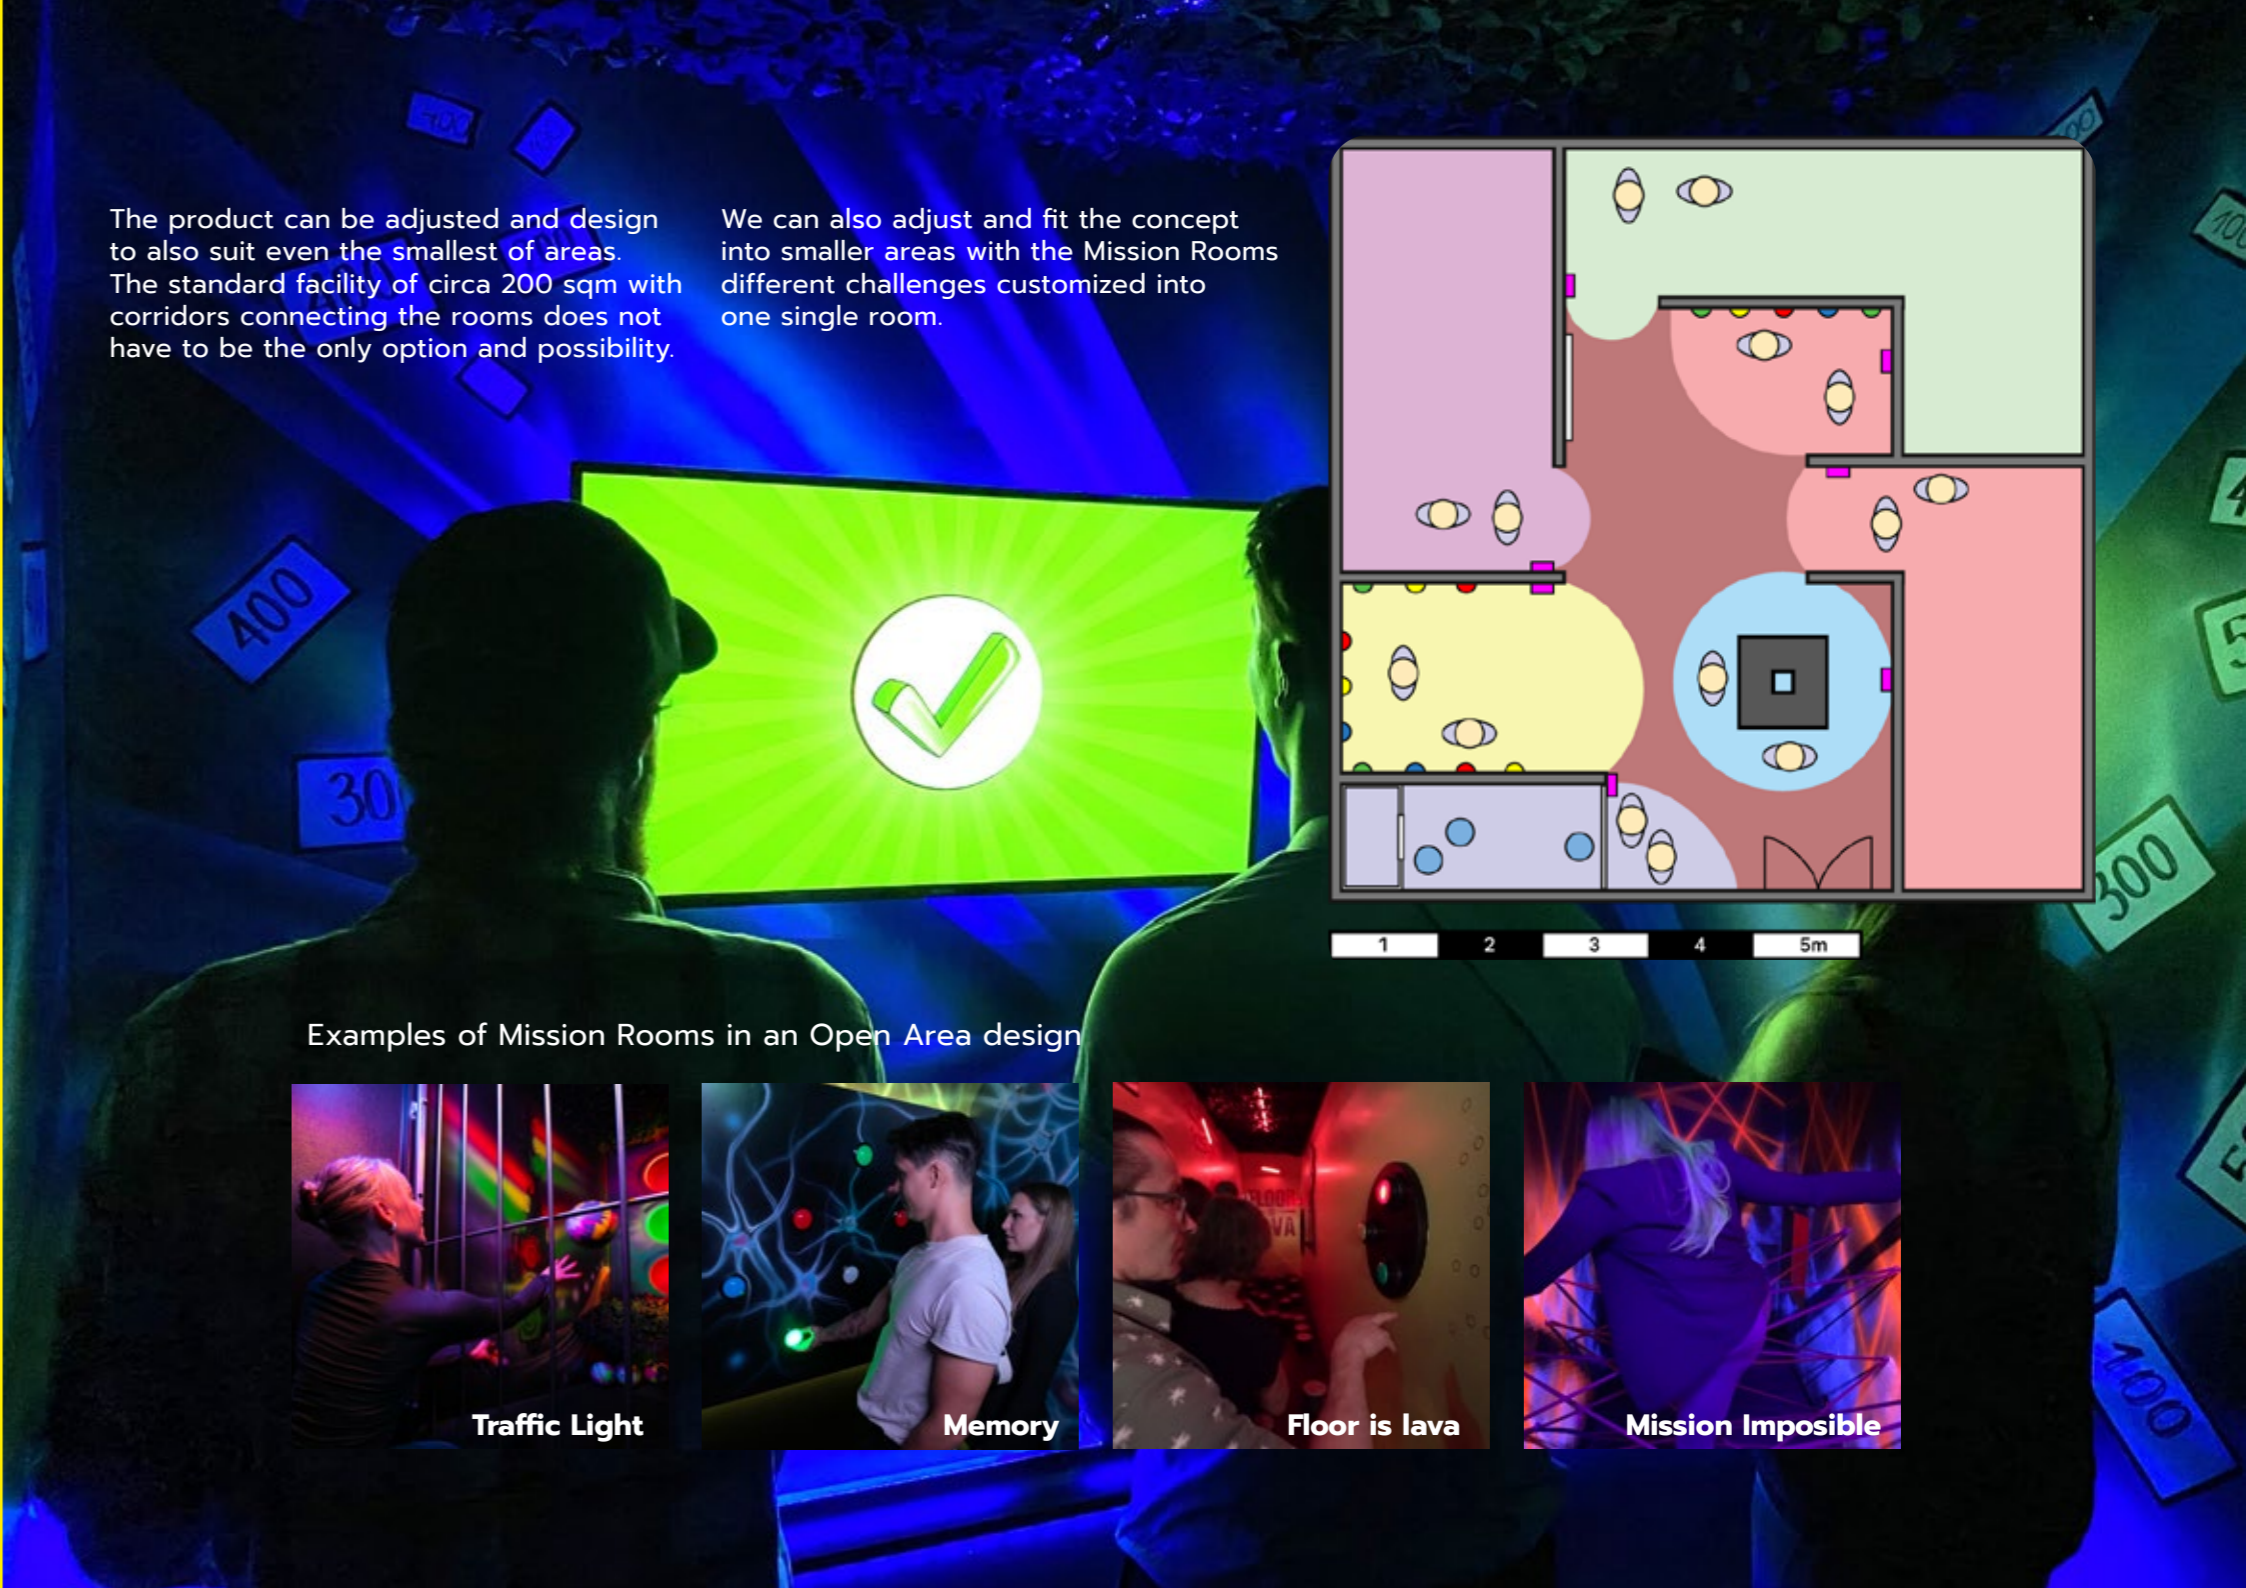

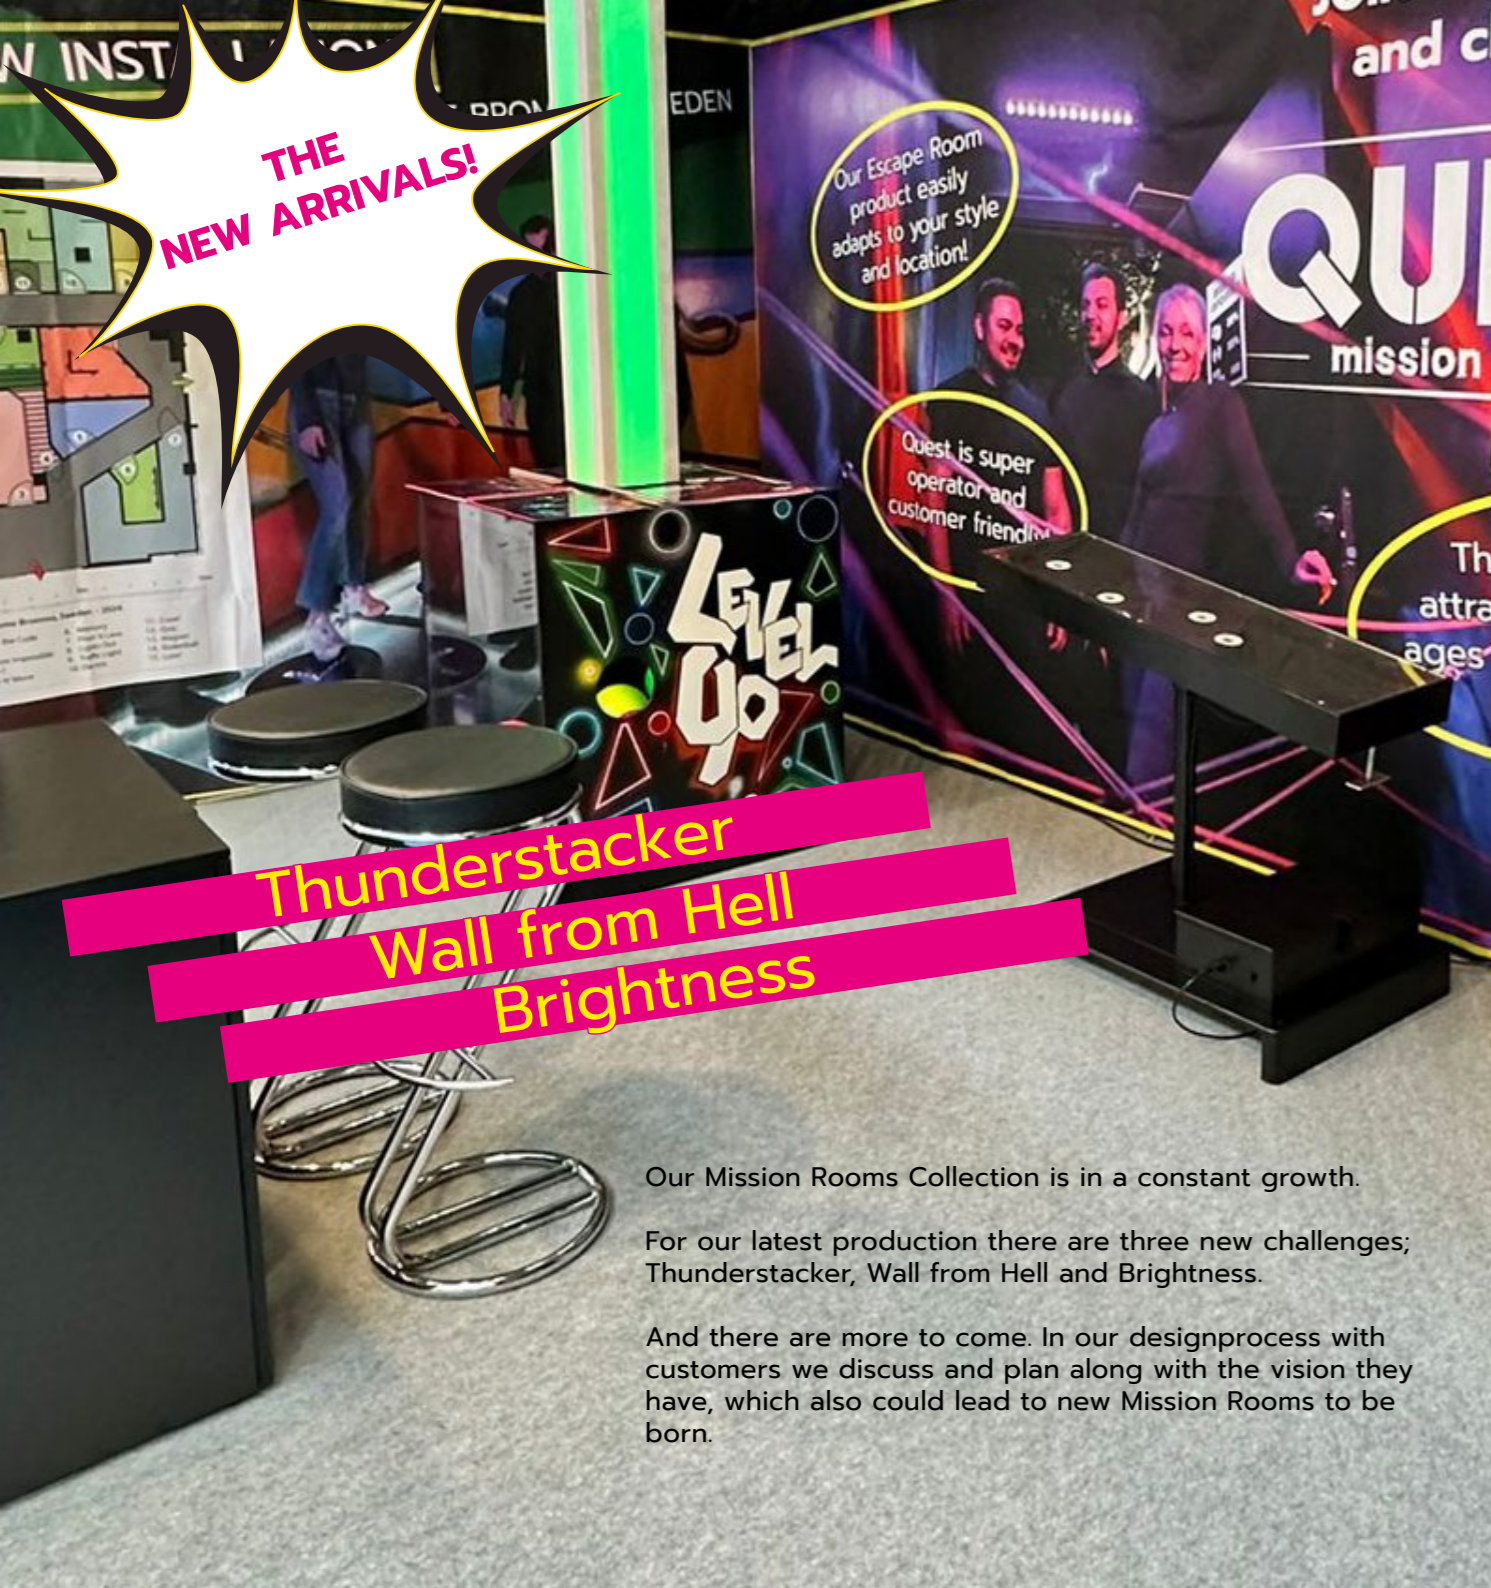

In addition to a large bowling alley, a black light mini golf course and a golf simulator, the QUEST Mission Rooms are FUN4YOU's fourth new attraction.

A total of six bowling lanes were removed to make room for the Challenge Rooms.

The facility is designed like an imaginative jungle in which visitors must prove themselves in various knowledge, skill and endurance tasks.

Location: Dättwil, Switzerland

- ✦ **Suitable for all ages and target groups!**
- ✦ **Fully automated Mission Room (resets itself after use for the next group of players)**
- ✦ **Support for multiple languages**
- ✦ **Remotely upgrades and troubleshooting**
- ✦ **Low staffing requirements**

Step 1: Contact us directly or request information on our website.

Step 2: In the next step, we will send you a checklist of questions to fill in. Based on the information you provide, we will create customized drawings with a presentation of your Mission Rooms facility. If you then have any comments on our initial proposal, we will then make changes to the drawings and presentation based on your feedback until you are satisfied.

Step 3: If all parties finally agree to proceed, we will send you a draft agreement for you to read through and sign.

Step 4: Let the game begin!
